Rone Peh

Information Technology student @ NYP | SWE Intern @ J.P. Morgan
Chase
Singapore, Singapore

Summary

I'm an Information Technology student who enjoys turning ideas into systems that actually work in real environments — not just for assignments, but for teams, organisations, and users.

I've had hands-on exposure to software development, web technologies, and process automation through internships and student-led initiatives, where I've worked on building internal tools, improving workflows, and collaborating across technical and non-technical stakeholders. I'm especially interested in how technology can streamline operations and scale impact without overengineering.

Alongside my technical work, I've taken on leadership responsibilities in a growing organisation, helping to shape processes, manage projects end-to-end, and build things from the ground up - an experience that's taught me how to think beyond guidelines and focus on usability, maintainability, and people.

I'm driven by curiosity, ownership, and continuous improvement, and I'm actively looking to grow in environments where I can contribute meaningfully while sharpening my technical depth in software development, automation, and problem solving.

Experience

JPMorganChase
SWE Intern - Commercial & Investment Bank
April 2025 - Present (1 year 1 month)
Singapore

As an Athena application developer, I work on server workloads migration from on-premise servers to the public cloud, and platform & tooling workstreams within the Currencies & Emerging Markets (CEM) line-of-business, under the Commercial & Investment Bank.

Youth Corps Singapore

Youth Corps Aspirant

October 2025 - Present (7 months)

Singapore

Participated in the Youth Corps Leaders Programme as an Aspirant, contributing to community engagement projects and leadership training focused on social impact. Worked with diverse teams to support ground-up initiatives addressing community needs, while developing skills in teamwork, communication and responsible leadership. Gained exposure to Singapore's social sector and the role of youths in creating sustainable and community-centred change.

ASEAN Youth Advocates Network

Head of Operations & Finance

July 2025 - Present (10 months)

Singapore

Led operational and financial functions to strengthen organisational sustainability and programme delivery. Redesigned internal workflows, budgeting, and reporting structures to improve transparency, coordination, and execution across regional teams. Supported the delivery of student-facing programmes, talks, and initiatives aimed at improving youth awareness of regional issues, civic engagement, and leadership pathways. Worked closely with cross-functional stakeholders in a volunteer-driven environment.

YouthTechSG

Volunteer - Cyber Youth Collective, Programmes Team

June 2025 - Present (11 months)

Singapore

Previously known as Cyber Youth Singapore, now rebranded as YouthTechSG, Singapore's largest youth-in-tech movement - empowering youths from all walks of life, collaborating with partners across government, industry, and education, and championing digital resilience, opportunity, and representation for youth.

Advisory Singapore

Networks Engagement Manager - Networks Division

August 2024 - Present (1 year 9 months)

Singapore

As a Networks Engagement Manager at Advisory Singapore, I build and strengthen partnerships with industry leaders, professionals, and key

stakeholders to drive impactful career support initiatives. I also engage in the technical side of the Networks department and helped restructure our database and technologies.

By fostering connections and engaging networks, we empower youth in Singapore with the resources and opportunities to make informed career choices.

Through events, mentorship programs, and collaborative projects, we help create a bridge between students and industry experts, shaping Advisory Singapore's vision of a more accessible career landscape.

Nanyang Polytechnic AWS Cloud Club

Executive Committee Member

April 2024 - Present (2 years 1 month)

Singapore

I organised workshops and hands-on projects to help members deepen their understanding of AWS and cloud computing. By facilitating knowledge-sharing sessions and supporting collaborative initiatives, I helped peers apply cloud technologies to real-world problems. Through these activities, I strengthened my technical skills, teamwork and organisational abilities, while fostering a collaborative environment where students could innovate and develop innovative solutions.

Nanyang Polytechnic LEO Club

Head of Liaison

April 2024 - March 2025 (1 year)

Singapore

NYP School of Information Technology

Assistant Sports Secretary - Social Sports Department

October 2023 - March 2025 (1 year 6 months)

Singapore

Supported the planning and execution of sports and social activities for students within the School of Information Technology. Assisted with coordination, logistics and administrative matters, including scheduling and internal communications. Worked closely with committee members to ensure smooth event operations and positive student engagement.

NYP InfoSec

Sub-Committee Member
March 2024 - February 2025 (1 year)
Singapore

NYP AI
Sub-Committee Member
February 2024 - January 2025 (1 year)
Singapore

Good Job Creations (Singapore) Pte Ltd
Event Crew
September 2023 - November 2023 (3 months)
Singapore

Republic of Singapore Navy
Naval Warfare Systems Operator (NSF)
April 2021 - February 2023 (1 year 11 months)
Singapore

As a Naval Warfare Systems Operator (NWSO), I was part of the Maritime Security Task Force (MSTF) under the Sea Security Group (SSG), responsible for safeguarding Singapore's maritime domain. I operated advanced naval combat and surveillance systems at headquarters, contributing to real-time threat monitoring, identification, and response.

My role involved:

- Operating and maintaining integrated warfare systems for maritime situational awareness
- Supporting navigation, radar tracking, communications, and combat systems operations
- Assisting in shipboard command and control during patrols, interdiction, and boarding operations
- Collaborating closely with multi-agency partners to ensure maritime security in high-traffic sea lanes

Through nearly two years of operational experience, I developed strong technical, teamwork, and decision-making skills in dynamic and high-stakes environments.

Kelly Services
Stewarding Crew
January 2018 - January 2021 (3 years 1 month)

Singapore

I ensured smooth operations and maintained cleanliness and organisation of event spaces during conventions and exhibitions. Responsibilities included coordinating with event staff, handling setup and breakdown tasks efficiently while also supporting a safe and welcoming environment for attendees.

Through this role, I developed teamwork, time management, and operational discipline in a fast-paced and high-volume environment.

SP Group

Telecommunications Officer

June 2020 - December 2020 (7 months)

Singapore

Handled customer calls for the BYOB campaign and related initiatives under Temasek Foundation, providing timely information, resolving queries and supporting outreach efforts. Coordinated with internal teams to ensure accurate messaging and smooth campaign execution. This role enhanced my communication, customer engagement and problem-solving skills while contributing to campaigns aimed at raising awareness and promoting sustainable practices.
